Certified to UL, CE, and RoHS standards, this heavy-duty contactor is ideal for EV charging stations, solar energy storage systems, battery packs, off-grid setups, DC distribution ...

The BSBC8P-100A high voltage DC contactor from BSB is a reliable solution for managing 1000VDC circuits in photovoltaic (PV) and energy storage systems (ESS). Built with a ceramic sealed structure, ...

100A 1000Vdc High Voltage DC Relay Contactors Max. Switching Voltage: 1500VDC Rated Current: 100A Main Contact Type: SPST-NO Auxiliary Contact: ...

The contactors are hermetically sealed for excellent reliability in harsh environments and provide high-speed arc extinguishing. The HVC series ...

EVQ Series Contactors can switch DC loads at both low and high voltage from 12 to 1000VDC. These hermetically sealed contactors can be mounted in any ...

Browse our off-the-shelf High-Voltage DC Contactors or partner with us to develop a custom solution for your next design.

Our DC contactors are small and lightweight and are designed to provide efficient switching in aerospace, commercial, and military electrical power systems.

ELEHUB's HES750 High Voltage DC Contactor provides reliable DC switching up to 750A and 1500VDC. Designed for energy storage, EV charging, and renewable energy systems.

Product Summary: High Voltage Dc Contactor 600A 1000V 1500V Coil Voltage 12V 24V Double Coil Relay for PV Energy Storage System BSBC10P-600 From VDAQXKP

1000V Photovoltaic Energy Storage High Voltage DC Contactor

It is possible to make parts burn around the contactor once operating failure occurs. It is necessary to take layout into account and to make sure power shall be cut off within 1 second.
