The 215kWh Liquid-Cooled Energy Storage System is a reliable, efficient solution for industrial and commercial use. It features easy transport, installation, and ...

Wide Load Compatibility Integrated AC-DC unit with neutral line output (380Vac & 220Vac), matching all types of loads in industrial parks, commercial districts, etc.

Before using this product, please read this manual carefully and operate the energy storage system according to the methods described in this manual to avoid equipment damage or personal injury.

The 215KWh/232KWh liquid cooled energy storage system has modular design and high reliability. It's suitable for various energy storage scenarios.

iCon 105kW/215kWh C& I Liquid-Cooled ESS(E) SU215E105LM 215kWh C& I Liquid-Cooled ESS(E) download 1.55 MB

The energy storage system is configured as 100kw/215kwh, and it adopts a distributed integrated design scheme. It is used in a variety of application scenarios such as emergency power supply, peak ...

The battery container adopts an energy cube structure, and each energy cube is equipped with a water cooler, inverter, and fire control system; the battery module meets the 15-minute quick removal ...

215kwh C& I Energy Storage System: Liquid Cooling + 100kw/215kwh + LFP battery + customisation available. Used in factories, commercial buildings, office ...

Discover the 215kWh Liquid-Cooled Energy Storage System by Chennuo Electric, offering efficient energy management and enhanced grid stability. Ideal for industrial applications, this system ...

# 215kWh liquid-cooled energy storage integrated machine

The 215kWh liquid-cooled industrial and commercial energy storage cabinets is optimized and integrated by the battery management system (BMS), thermal ...
