-----

Explore 2V DC lead-acid batteries for high-capacity backup power and reliable energy storage. Ideal for UPS systems, solar installations and industrial power applications.

The SPRE 02 1255 is a 2-volt deep-cycle flooded battery engineered for solar power and renewable energy applications.

A 2V Energy Storage Battery is a type of lead-acid or advanced technology battery cell designed to provide stable, long-lasting power at a nominal voltage of 2 volts.

East Champ provides 2V lead-acid batteries designed for various industrial and commercial uses. With capacities from 100Ah to 3000Ah, these batteries ensure reliable power storage for applications like ...

These superior VRLA batteries feature excellent deep discharge recovery and fast recharge performance. These features make REX series more cost effective ...

Features: Flooded Lead Acid: Handcrafted in the U.S.A. with premium components Our exclusive XC2(TM) Formulation delivers the Highest Total Energy Delivered ...

EOS - Series 2V Valve Regulated Lead Acid batteries feature the latest advancement in plate and battery technology offering exceptional service life, ...

The battery employs patented alloy plate technology, enhancing electrode active material utilization through a special paste formulation, improving charge acceptance by 30%, enabling rapid storage of ...
