Choose from 250kW up to 500kW total PCS power ratings and capacities ranging from 500kWh to 2200kWh. All-in-one design contains battery racks, PCS, EMS, ...

They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the ...

Each BESS container has either a 300kW or 500kW PCS system offering a complete, install ready energy storage system. All system systems are offered with either 400VAC or 480VAC 3 phase ...

Built for rapid deployment, our 500 kW capacity batteries are a fast way to increase your efficiency, on or off the grid. Packaged with everything you need - from fire protection to HVAC - they're an effective ...

An ultra - powerful containerized microgrid for extreme power needs. Delivers 768V battery voltage, 500kW grid - connected output, and 720kW max PV input. Features forced air cooling, IP54 ...

The Microgrid System combines high-density lithium battery storage, MPS Microgrid Cabinet, intelligent EMS control, fire safety, thermal management, ...

Our 500 kW - 1 MW containerized commercial & industrial (C& I) energy storage system is engineered for large-scale applications such as factories, industrial parks, data centers, and microgrids.

A high-performance, all-in-one, containerized battery energy storage system developed by Mate Solar, provides C& I users with the intelligent and reliable solution to optimize energy efficiency and resilience.

Featuring a split PCS and battery cabinet design, it offers 1+N scalability and integrates seamlessly with solar PV, diesel generators, the grid, and utility power.
