The integrated photovoltaic storage and charging cabinet is a car charging product with high integration, integrated photovoltaic storage and charging, intelligent power distribution, reduced charging pile ...

Our 60kW DC charging pile is specially designed for electric vehicles, and provide friendly human-machine operation interface, APP charging, LCD interaction, charging control, metering and billing, ...

The Extreme Leap Series 60kW/80kW DC Integrated Charging Pile provides comprehensive safety with automatic shutdown features and overload protection, ensuring worry-free charging.

New DC pile power level in 2016-2019 Source: China Electric Vehicle Charging Technology and Industry Alliance, independent research and drawing by iResearch Institute.

The 60kW DC pile can produce crystal and integrate power conversion, charging control, human-computer interaction control, communication, charging, and ...

Its core brand "Chongjianqiang" focuses on providing safe, efficient and intelligent new energy vehicle charging piles and solar-storage-charging integrated system solutions for global users.

With its powerful 60kW DC output, this floor-standing pile meets growing demand for rapid, dependable public charging solutions that enhance customer experience and drive adoption of new energy vehicles.

With the concept of modular design, it can be flexibly configured into 60kW, 80kW, 100kW and 120kW and other power outputs to meet the requirements of charging EVs with different capacities, and it's a ...

60kW DC Charging Pile Intelligent Interaction
 Efficient and Reliable
 Safety Protection
 Strong Weather Resistance

The 60kw/90kw integrated DC charging pile integrates the charging pile, charging interface, human-computer

60kW energy storage charging pile

interaction interface, communication, billing, and other parts into a whole.
