As Australia's national science agency, CSIRO has turned its decades of expertise in energy to answer this challenge through this Renewable Energy Storage Roadmap. We delivered our first net zero ...

Developer Someva Renewables and utility AGL have proposed a project in New South Wales, Australia, combining wind, solar and up to ...

State-owned gentailer Synergy is seeking planning approval for the 2 GW Tathra renewable energy project that is to combine up to 500 MW of solar ...

Our priority renewable energy project is the Yanco Delta wind farm in NSW, and we are also building large scale battery energy storage systems at our Eraring and Mortlake power stations.

Located in Queensland's Central Renewable Energy Zone (REZ), the project combines Elements Green's global development expertise with ...

As the world races toward net-zero emissions, Australia has unveiled its first integrated wind-solar-storage hybrid power station - a landmark project redefining renewable energy reliability.

In Australia, ENGIE is developing its future energy portfolio. With a mix of renewable and non-renewable energy, we aim to generate more than 2,000 ...

18 Feb 2026 Australia's renewable energy sector finished 2025 with a record-breaking final quarter, according to our latest Quarterly investment report: Large-scale renewable generation and storage, ...

Solar and wind are the cheapest forms of energy in the world, and Australia continues to play a big role in that space. But now, the mission is "firming" the complex integration of software, ...

Australian wind and solar energy storage power station

With a balanced portfolio of wind, solar and big battery projects, we are Australia's largest 100% renewables company. We own and operate many of our projects ...
