The storage system is part of the largest hybrid fleet in the EU, including a 106 MW photovoltaic plant. It is connected to Bulgaria's first and only licensed closed distribution network located at the "Industrial ...

Bulgaria is now home to the largest electricity storage facility in the European Union. With an installed capacity of 124 MW and a capacity of 496 ...

Located in an industrial zone in the town of Lovech, north-central Bulgaria, the BESS was officially opened in May 2025. It is equipped with 111 lithium iron phosphate (LFP) battery units and ...

IPS has officially opened its new battery energy storage system (BESS) manufacturing facility near Sofia, Bulgaria - a site recognized by the ...

Hithium has launched a 55 megawatt hours (MWh) battery energy storage system (BESS) project in Razlog, southwestern Bulgaria. The project, ...

Built by Bulgarian renewable energy system and microgrid controls company International Power Systems (IPS), all components of the BESS units, ...

In this project, GSL ENERGY adopted an advanced lithium-iron-phosphate (LiFePO₄) high-voltage energy storage battery solution, which is ...

Abstract -- The purpose of this paper is to formulate guidelines on the selection of battery chemistry for stationary renewable energy storage in relation to National Plan for Recovery and Sustainability of ...

Bulgarian renewables developer Sunterra RE has commissioned a 47 MW / 94 MWh battery energy storage system (BESS) at its Kaloyanovo solar ...
