-----

In this study, axial flux coreless permanent magnet synchronous generator (PMSG) is designed as double stators and three rotors and its electromagnetic and structural characteristics are ...

The Nature's Generator Wind Turbine will allow you to harness the power of wind ...

Abstract--This paper proposes a concept for a coreless axial flux permanent magnet (CAFPM) generator with a double-sided Halbach array rotor for direct-drive offshore wind turbine applications.

The disk-type air-core permanent magnet generator produced by our company ...

Coreless Axial Flux Permanent Magnet Wind Generator: Direct-drive design for low RPM high-torque output. 6061 aluminum housing withstands harsh conditions.

The generator needed in the wind turbine must have a high output power even at low wind speeds. A coreless generator with axial flux is a solution in the development of new and renewable ...

This paper presents an innovative design for a low-speed, direct-drive, axial-flux permanent-magnet (AFPM) generator with a coreless stator and ...

The FLTXNY DC Generator Permanent Magnet Alternator utilizes coreless maglev technology to provide efficient and reliable power for your DIY wind turbine. With ...

Description ... 3kw vertical low rpm ac generator for hydro,wind turbine use,different rpm / voltage available; 100/180/200/300rpm etc,welcome to contact us for more ...
