If eligible, your business may benefit from the Direct Current Fast Charging program (DCFC) which helps property owners install EV fast charging equipment at lower costs.

Use PlugShare's community sourced map of DC fast charging stations to charge your electric vehicle.

Unlike slower alternating current (AC) charging methods, DCFC bypasses the vehicle's onboard charger, delivering DC power directly to the battery, allowing ...

DC fast charging (DCFC), also known as Level 3 charging, is the fastest way to recharge electric cars. DC fast charging delivers high-voltage direct current (DC) power directly to the battery. ...

DC fast chargers (DCFC), also known as Level 3 chargers in North America. It is the fastest way to recharge an electric vehicle by delivering high ...

These direct current level 3 fast chargers are typically found at public charging stations where drivers may need a quick boost to continue on their journey. ...

Do you need a DC fast charger? This guide explains what Level 3 DCFCs are and how they work, including where to find them.
