-----

Sunrock Distributed Generation (SDG) is a leading national platform for developing, operating and financing commercial solar power systems, battery storage, and grid optimization solutions serving ...

Comprehensive guide to renewable energy storage technologies, costs, benefits, and applications. Compare battery, mechanical, and thermal storage systems for 2025.

In 2024, generators added a record 30 GW of utility-scale solar to the U.S. grid, accounting for 61% of capacity additions last year. We expect this trend will continue in 2025, with 32.5 GW of new utility ...

SOLV Energy delivers the large-scale solar and battery storage projects that keep these industries powered -- on time and at massive scale. With proven expertise, deep resources and full lifecycle ...

As part of the new airport's build, Daxing has an integrated project within it combining solar power generation with energy storage. This ensures a ...

There are over 1,400 major energy storage projects currently in the database, representing more than 116,300 MWh of capacity. The list shows that there are more than 195 GWdc ...

The Company is conducting this RFP to seek third-party PPA proposals to fully evaluate and determine the most favorable Distributed Solar generation, Utility-Scale Solar generation, ...

One of the US's largest solar + battery storage projects is now fully online in Mojave, California.

Project developers and utility operators are preparing for a historic expansion of the US electric grid, with 86 GW of new utility-scale generating capacity slated to come online in 2026 ...

EIA reports U.S. developers plan to add 86 GW of power capacity in 2026, led by solar, battery storage, wind, and natural gas projects.
