-----

This report provides rankings of the top PV inverter manufacturers based on megawatts shipped, which are broken down globally, regionally, by product type, and by major market.

In 2022, Huawei had the largest PV inverter market shipments worldwide, accounting for some 29 percent of the market.

Wood Mackenzie's latest analysis expects market uncertainty in China, Europe and the U.S. to cause two consecutive years of contraction in the ...

The global energy landscape saw a significant shift in 2023, marked by a 56% increase in solar photovoltaic (PV) inverter shipments, to reach 536 GWac. ...

The top 10 global PV inverter vendors accounted for 81% of the market, according to Wood Mackenzie's "Global solar inverter and module-level power electronics market share 2024" report.

Finally, the top 10 PV brand rankings lists for various categories are finalised for announcement at the annual Century Photovoltaic Conference, ...

Solar inverter shipments surged by 56%, reaching 536 Gigawatts (GW) of alternating current (GWac) in 2023, reflecting robust growth in the solar ...

Global PV inverter shipments increased by 10% to 589 GWac in 2024, with growth occurring in Asia Pacific and the Middle East, while the US ...

The Centralized PV Inverter Market is positioned at a pivotal inflection point driven by accelerating renewable energy mandates, technological maturation, and evolving project economics. ...
