This marks the first project among Inner Mongolia's four large-scale wind and solar energy bases in desert areas to achieve a combined 2 GW grid connection. It is also the first project ...

An aerial drone photo taken on Sept. 2, 2025 shows workers installing photovoltaic panels at a new energy base in Kubuqi Desert, north China's Inner Mongolia Autonomous Region.

With a total installed capacity of 300 MW, the CGN project achieved a full-capacity grid connection on May 30 this year. It innovatively adopts a "grass-PV complementary" ecological ...

In deserts of Kubuqi and Ulan Buh, the sand control model with photovoltaic projects has been widely implemented, transforming stretches of sandy terrain into vast "blue seas" brimming with ...

It is planned and constructed by China Energy Inner Mongolia Company. After completion, it will annually transmit 5.7 billion kilowatt-hours of ...

Workers from CHN Energy Inner Mongolia Company dedicated their time and effort to transform the desolate landscape into a remarkable "blue ocean" of photovoltaic panels. After more ...

Once defined by arid wastelands and ecological degradation, the Kubuqi and Ulan Buh deserts in Inner Mongolia are now home to vast expanses ...

Sineng Electric is supplying 854.72MW of string inverters to a 1.6GW solar project in Inner Mongolia, China to support clean energy and ...

Inner Mongolia Energy Group has turned on a 1.6 GW solar project in Bayannur, Inner Mongolia, using inverters from China's Sineng Electric.

Has the photovoltaic panel installation work started in Inner Mongolia

Chinese investment firm Inner Mongolia Energy Group has brought a 1.6 GW photovoltaic plant online in the Ulan Buh Desert near Bayannur, Inner Mongolia. The company built the plant ...
