We represent Ireland and Northern Ireland's energy storage industry bringing together exciting new technologies and innovations that will help decarbonise ...

Energy storage systems are vital to Ireland's renewable ambitions. Learn how batteries, long-duration storage and grid upgrades will help deliver clean power

Due to the substantial photovoltaic capacity, in order to ensure full PV grid integration (minimizing the wastage of solar power generation), the client is ...

1 MW of power packed into a compact container, the ZBC 1000-1200 is the largest battery pack in our container range of energy storage systems. It demonstrates plug and play capabilities and are quick ...

Located in County Meath, in the east of Ireland, the system is made up of more than 4,000 modules in 16 containers, which occupy an area the size of a football pitch. The project, the ...

Large battery storage units are now playing a bigger role on Ireland's electricity system, after a large change introduced by EirGrid and its partners last year. Before November 2025,...

TSG Ireland supplies and installs high-quality battery storage equipment, managing all aspects of the project including civil works, infrastructure, cabling, grid ...

Statkraft announces it will build Ireland's first four-hour grid-scale battery energy storage system (BESS) in Co. Offaly, co-located with Cushaling ...

It can store enough power to supply 10,000 homes with renewable electricity for a full four-hour period after the wind has stopped blowing. The 22.8-megawatt battery system has already...
