Cape EMS Bhd is set to begin local assembly of a China firm's battery energy storage systems (Bess), with a focus on capturing opportunities in the Asean ...

Our dedicated team continues to find new applications for our proprietary technology and the global OEM partners who use it, utilizing the only commercially available bio-based gelled and solid-to-solid ...

Chinese battery manufacturer EVE Energy has secured a contract with the Malaysian government to deploy an AC/DC integrated 36MWh solar-plus-storage system at Kuala Lumpur ...

Nonetheless, a significant thermal resistance exists to the transfer of heat to and from the phase-change material. This project will investigate methods of enhancing this heat transfer to make ...

The agreement, focusing on Phase 2 of EVE Energy's manufacturing facility development, promises to revolutionise Malaysia's energy ...

With regional engineering expertise and a global O& M network, SynVista continues to deliver end-to-end energy-storage capabilities -- from project development and system design to ...

The contract exchange ceremony between Leader Energy and Plus Xnergy was witnessed by Deputy Prime Minister YAB Dato Sri Haji Fadillah bin ...

In this review, we systematically examine the latest research in phase change thermal storage technology and place special emphasis on active methods using external field disturbances ...

The review aims to direct future research directions and foster sustainable, efficient energy storage technologies for contemporary energy management and conservation.
