The company specializes in the investment, construction, operation, design, consultation, and engineering EPC work for solar PV plants, as well as in different applications of solar PV products.

Linuo owns the only complete solar industry production chain from quartz sand mining, glass tube, solar collector tube, solar water heater system, to solar photovoltaic in China.

Our solar panel manufacturing plants are equipped with the latest in photovoltaic panel machinery and solar-making machines These facilities support large-scale ...

The factory is regarded as the world's first of its kind and is operated by Linuo Ritter, a solar panel producer in Jinan. The factory boasts a 100 ...

Our new production line is officially launched! New #solarpanels with 182mm solar cells and compatible with 210mm solar cells, which makes power up to 600W!

As one of the earliest international hi-tech developed photovoltaic-production companies in China, Linuo Power specializes in research and development, manufacturing and sales of solar modules, and is ...

The Group's industrial base covers a 270-hectare area and has a production capacity of 300MW for solar cells and panel modules.

Specialize in mono/poly silicon solar panels mass production (annual production capacity: 1.2GW), featuring state-of-the-art manufacturing technologies including Black Silicon, Diamond-wire Cutting etc.
