---

With the laser integrated in Solarfold and a specially made tape measure, you can position and drill the drill holes for the ground anchor in no time. Just sink the ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable ...

From mining sites in Australia to telecom infrastructure in Africa and community microgrids in Southeast Asia, the universal challenge remains: how ...

That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact ...

The container is equipped with foldable high-efficiency solar panels, holding 168-336 panels that deliver 50-168 kWp of power. It is the perfect alternative to unstable grid power and diesel generators, ...

From smart site selection and design to seamless installation and operation, BoxPower's technology ensures every microgrid project is faster, smarter, and ...

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.

We design and engineer custom Solar Power Systems for Oilfield Services, Gas Pipelines, Off-shore Drilling, Injection Sites, Wellhead Locations and Related Oil ...
