The glass-glass modules with bifacial technology from LONGi Solar combine high energy yields with a robust design - ideal for PV projects with high demands on service life, stability and yield optimization.

The EcoLife product series will be fully launched in Europe in August 2025. Up to ...

The 500W Longi solar panels are 1500-V system ready to enable longer strings and simpler BOS, and they're engineered with robust glass, an anodized aluminum ...

LR7-54HTH 470-475M longi single glass solar panel LR7-54HTH 470-475M Cell orientation:108 (6*18) Single glass, 3.2mm coated tempered glass Output ...

The LONGI Solar panel we sell adopts a single-glass design, which provides higher light transmittance and lower light reflectivity, improving energy conversion efficiency.

There are longi solar panel single glass varieties to accommodate different energy requirements and mounting orientations. Some of the most popular varieties include monocrystalline, polycrystalline, ...

Offering power outputs ranging from 640W to 670W and achieving a module efficiency of up to 24.8%, it delivers industry-leading performance, maximizing ...

Featuring a sleek monofacial design with a single-glass structure, the panel ensures durability while maintaining a lightweight profile for easy installation. With power ratings of 555W to 560W, it offers ...

In general, longi hi-mo x10 lr7-72hvh single glass photovoltaic board is an all-in-one high-quality product that combines beauty, efficiency and environmental-friendly.

LONGi launched its mono-PERC modules in 2016, featuring integrated PERC technology on monocrystalline silicon and low light degradation, and its cell efficiency has increased from 21% to ...
