While photovoltaic panel costs in Luxembourg City remain higher than EU averages (EUR2.10/W vs EUR1.85/W), generous subsidies and efficient energy pricing create compelling ROI.

Luxembourg has introduced a major change to how it subsidises solar panels on residential buildings, making it simpler and more affordable for homeowners and building owners.

A maximum EUR10,000 (\$11,679) is available for a 15 kW solar array, while the maximum subsidy for co-located storage is EUR2,250 for a 9 kWh system.

Answer five questions about your home and find out how much it would cost to install solar panels and calculate the return on investment. Let's get started! Discover how to choose the right solar panel ...

Installing a solar panel in Luxembourg costs between EUR850 and EUR1050 per panel. On average, you need 2.3 panels to produce 1 kWp. 1 kilowatt-peak therefore costs between EUR1955 and EUR2415,

For the purchase of a photovoltaic system, you can obtain a subsidy of 20% of the investment cost, with a ceiling of EUR 500 per kWp* (maximum: 30 ...

Get free quotes for home solar installations in Luxembourg. Reduce energy bills, increase property value, and gain energy independence with Nextimmo.

In this Ecoclima guide (2026 edition), we give you realistic ranges, examples of budgets "before subsidies / after subsidies", and above all a clear reading of what makes the price vary. The goal: ...

Solar panel costs can be affected by many factors, including system size, type of panel and home electricity needs. We break down these and other factors in our solar panel cost guide.
