Data sources are diverse and include data from the Energy Information Administration (EIA), the Federal Energy Regulatory Commission (FERC), and ...

Committed to Restoring America's Energy Dominance.

A map of the US that provides information on major PV and CSP solar projects and their status.

Explore the top US utility-scale solar projects of 2024-2025. Learn how gigawatt-scale farms and integrated battery storage are powering America's energy future.

You can then select a specific concentrating solar power (CSP) project and review a profile covering project basics, participating organizations, and power plant configuration data for the solar field, ...

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development.

Top biggest solar PV stations in the United States 2026. PV parks, PV farms. (Updated February 2026) Get familiar with our list of the largest US ...

The database combines datasets from the U.S. EIA, the Environmental Protection Agency (EPA) and the National Renewable Energy Laboratory (NREL). The locations and array boundaries of all ...

Here is a list of the largest planned solar projects in development in the US --ranked by planned capacity in megawatts. These projects are expected to ...

Concentrating solar power (CSP) projects in United States are listed below alphabetical by project name. You can browse a project profile by clicking on the project name.
