Join us at Solar Power World as we cover the world of solar news on technology, development and installation on a daily basis.

The U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) conducts research to reduce the cost and impact of siting solar. We've ...

Developed by researchers from Wuhan University of Technology, the new type of polymer solar cells successfully achieved 19.1% efficiency.

A new project, Tehuacana Creek 1 Solar and BESS, adding 837 megawatts (MW) in Texas, is the largest solar photovoltaic project expected to come online in 2026; it will also offer an ...

Fortunately, there's a promising solution. Mining the Sun, a report by The Nature Conservancy, suggests that siting clean energy infrastructure on ...

Solar Energy Information. Read the latest news and techniques for efficient solar photovoltaic power, new solar energy systems and more.

Explore the latest solar panel technology, new solar panel technology, and solar energy technology trends improving efficiency.

Latest solar power news from Europe, Latin America, Sub-Saharan Africa, APAC, MENA and more. Stay updated on solar PV, ...

Explore 2025 solar siting trends across the U.S., including site availability, parcel size, and hosting capacity shifts. Insights to guide your next project.
