They may be configured in series, parallel or a mixture of both to deliver the desired voltage, capacity, or power density. Packs are identified by cell size, number of cells, battery structure, chemistry, ...

Excell has extensive experience with Lithium-Ion custom battery packs. We specialize in high temperature lithium batteries.

If you can not find the right battery pack from our website, please download Custom Battery Pack Form (word file) or (pdf file) and fill out, then email the form to us at sales@batteryspace

Cut weight, save space, and reduce costs with prismatic and pouch lithium cell designs. See how they optimize battery pack performance and packaging.

Explore a wide range of custom battery pack assemblies in various chemicals and styles. Contact us to get a quote tailored to your specific application!

BEVIGOR Lithium AA Batteries 24 Pack, Long Lasting 1.5V 3000mAh AA Battery, 20-Year Shelf Life Lithium Batteries for Blink Camera, Flashlight, Microphone, Alarm System?Non-Rechargeable?

Custom lithium-ion battery pack designs enable application-specific optimization that standard solutions simply cannot match, making them worth ...

Discover the full development process behind non-standard lithium battery packs, where custom BMS integration and 3D-printed enclosures are part of the build.

As with any relatively new technology, we continue to learn more about the safety and performance characteristics of both rechargeable and non-rechargeable lithium batteries

This article will discuss starting from what is non standard battery, characteristics, types, to pros and cons of

Non-standard lithium battery pack
