In addition to our premium, reliable stationary batteries, we carry a full line of well-engineered, factory-assembled UPS battery cabinets. Selecting the best ...

They can facilitate multiple combinations of batteries, up to 63 battery blocks, connected in series and parallel configurations with positive, negative, and mid-point poles. The battery cabinets also support ...

Our IP67 electrical enclosure is both dustproof and waterproof, and can withstand immersion in water up to 1 meter deep for 30 minutes without water penetrating ...

The Vertiv(TM) EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical ...

Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application ...

A highly engineered data center cabinet solution that delivers fast, built-to-order configurability, best-in-class strength, and scalability regardless of the application.

Alpine Power Systems engineers and builds customized battery cabinets and enclosures for critical power applications, for utility, telecom, CATV, data center and other applications. Our cabinets and ...

The EPIC Series Battery Cabinet is designed to maximize DC system performance and battery life, saving you time and money. This NEMA 3R modular enclosure, with built in intelligence, will safely ...

Purpose-built for sub-5-minute runtimes, it provides exceptional power density in a significantly smaller footprint, helping data centers reduce infrastructure requirements and lower total cost of ownership.

Northeast Data Center Battery Cabinet IP67

Battery systems pose unique electrical safety hazards. The system's output may be able to be placed into an electrically safe work condition (ESWC), ...
