The Solarlift, also called a panel lift or PV panel lift, is an efficient solution for speedy & safe transport of photovoltaic & solar panels.

Specially designed with a custom carrier that functions as a cargo receptacle, Yifeng's solar panel lift is a space-saving way to reach inaccessible loading areas.

Geda Solarlifts - Different Modalities For Your Application Area  
Unique Concept: The Solar Platform  
Geda Solarlift - One Device, Several Advantages  
The GEDA Solarlift has particularly been designed for working with sensitive materials and offers a specific solar platform for a safe transport of expensive solar panels. The platform provides a specially developed plastic surface and an extra fixation possibility which can be adjusted as desired. The second transport variation is the collector pl...

Solar Coaster - Kit Only - Solar Panel Lifter  
Lightweight & Efficient: Lifts panels up to 8.5m when attached to almost any ...

Main products are solar panel lifts, window glass lifts, aluminum alloy lift, scaffolding, etc. The development concept is for high quality products and excellent services to customers.

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville ...

The photovoltaic panel lift offers significant benefits to the user, primarily facilitating the work process. It significantly reduces workers' physical strain and increases installation efficiency while enabling ...

The Fluke Module Lift(TM) is designed to safely and quickly transport a PV module to a roof, streamlining the installation process of solar panels. This innovative tool ...

Discover solar panel lifts with electric wire rope slings, 200-300kg capacity, ideal for rooftop solar installations. CE certified, steel construction.
