State Solar Carve-Out ProgramsSolar Interconnection Standards & PoliciesUnderstanding Electricity Market Frameworks & PoliciesInterconnection standards define how a distributed generation system, such as solar photovoltaics (PVs), can connect to the grid. In some areas of the United States, the interconnection process lacks consistent parameters and procedures for connecting to the grid or is unnecessarily complex. This drives up costs and causes delays, which can be sign...See more on [epa.gov](https://www.epa.gov).

Department of EnergyHomeowner's Guide to Solar - Department of EnergyWhen it comes to installing solar, our resources can help you determine the best options.

Solar technologies have changed, new laws have been passed and codes have been revised. This second

Policy on installing solar photovoltaic panels

edition of the Guidebook addresses those changes, improves upon the ...

Tech-nician's license to oversee and perform most aspects of a rooftop solar installation. While the Limited Renewable Energy Technician license restricts the scope of the electrical work a ...

Some governments impose mandatory solar panel installations on all new developments, while others offer tax credits ...

Explore the solar power installation permit requirements across states, including costs and regulations, to streamline your solar project effectively.

From California's groundbreaking solar mandate to Florida's net metering policies, each state maintains distinct rules that directly impact installation costs, energy savings, and property rights.

This comprehensive guide will walk you through everything you need to know about solar panel permits in 2025, including when they're ...

There are a wide variety of policies at the state and local level that impact distributed solar and its customers. By enacting federal and state-level policies to accelerate the growth of utility-scale solar, ...

At the federal level, there are several key policies, programs, and regulations that impact the development of solar PV and other renewable energy projects, influencing project procurement ...
