-----

This event focuses on the latest advancements in microgrid technology and off-grid systems, bringing together industry leaders for networking and knowledge sharing.

Accompany track: Smart Grid Infrastructure Energy Supply for Transport Systems and Traction Vehicles Corrosion Detection and Monitoring in Transportation Infrastructure Structural ...

The 19th annual Symposium on Microgrids will be held on 9-13 November 2025 at the Shenzhen Institutes of Advanced Technology, Chinese Academy of Sciences, and the University of Macau.

We look forward to sharing the innovative technologies and approaches being used to enable two-way energy and information flow, faster fault isolation and power outages restoration, renewable energy ...

As AI data centers, electrification of industrial processes and transportation, and other factors drive a surge in demand for electricity in North America, microgrids and off-grid energy systems are seen as ...

In March 2025, the Smart Electric Power Alliance (SEPA), RE+ Events, EMerge Alliance, and Microgrids Resources Coalition (MRC) convened developers, utilities, policymakers, and community ...

Explore the leading trends, challenges, and opportunities shaping microgrids in 2025. Discover how energy leaders can drive innovation and ...

Based on the Smart Grid Innovation Map, the Tree Map below illustrates the impact of the Top Smart Grid Trends in 2025. Startups and scaleups are developing technological solutions for improving ...

A wide range of smart grid nominations were received, representing projects from 10 different countries throughout the world. The winning projects were selected by an independent, international jury of ...
