A more stringent definition for energy independence bars the import of all foreign fuels. According to that understanding, the U.S. hasn't been energy ...

Technological innovation and broad deregulation are responsible for transforming the U.S. into a global energy powerhouse.

We were formed in 1922 by the people of Saint John, for the people - as a result of a local group of citizens interested in having low-cost electric power for the city.

Saint John Energy was founded in 1922 by the people for the people, when a local group of citizens interested in having low-cost electric power for the city got together. Since then, we have proudly ...

Go green. Do good. Explore how you can save money and the planet through energy conservation & efficiency measures.

In recent years, Saint John Energy has taken proactive steps toward sustainability and community engagement. It holds the Sustainable Electricity Company designation from the Canadian Electricity Association, reflecting its commitment to responsible environmental and social practices. The utility has implemented initiatives like demand-management programs that reduce peak electricity costs and integrates renewable energy into its supply mix. One of its most significant projects in this area is a par...

It's happening now, and the implications are clear: Access to reliable energy is no longer just an economic issue -- it's a national security ...
