FlexBase Group will start construction on a data centre plus 800MW/1,600MWh flow battery in Switzerland imminently, the firm claimed.

Construction has started on what is described as the world's largest flow battery, an 800-MW/1.6-GWh project in Laufenburg, Switzerland, non-profit ...

Flexbase Group has broken ground on an 800 MW/1.6 GWh redox flow battery project in Laufenburg, Switzerland, in what could become one of ...

Swiss developer FlexBase has commenced construction on a cutting-edge technology center in Laufenburg, a scenic town along the Rhine in the canton of Aargau.

The Swiss cleantech company has successfully closed a pre-seed financing round of EUR 14.4M, which will accelerate the development of its membrane-free redox flow battery and ...

Flexbase Group has begun building what could become one of Europe's largest flow battery storage installations, breaking ground on an 800 MW/1.6 GWh redox flow system in ...

Construction work began in May 2025. Completion of the structural framework is expected by the end of 2027, with commercial operations ...

The construction of the new technology center will create a modern campus for energy and innovation in Laufenburg. Covering an area of 40,000 m², the campus will combine battery storage, an AI data ...
