We have multiple openings for PhD and postdoc positions at the newly launched Global Energy Centre "EPICS" (Electric Power Innovation for a Carbon-Free Society)!

NIST's Postdoctoral Program supports a nationwide competitive postdoctoral program administered in cooperation with the National Academy of ...

The Harvard Grid Fellowship represents an opportunity for inspired, engineering and science-oriented innovators to translate promising research or technologies ...

The University of St. Thomas invites qualified candidates to apply for a Postdoctoral Scholar position at the Center for Microgrid Research. The position will support the Center's research

The Energy Innovator Fellowship program funds recent graduates and energy professionals to work with critical energy organizations to advance energy solutions

The Postdoc Program offers unique opportunities through experimental and/or theoretical research, intentional mentorship, career ...

Faculty and administrative positions at colleges and universities. Updated daily. Free to job seekers.

The position focuses on the modeling and control of microgrids, specifically the development of low-voltage microgrid control schemes and Controller Hardware-in-the-Loop (CHIL) validation.

Postdoctoral in Power Systems and Microgrids: The Energy Institute of Louisiana is seeking a highly skilled Postdoctoral Researcher in Power Systems and Microgrids to support ...
